

Thank you for your recent purchase.

I am a member of On The LIGHTER Side (OTLS), a lighter collectors' club founded in 1983 by Judith Sanders and John Cuevas. It has hundreds of members from countries worldwide. We provide informative and entertaining bi-monthly color newsletters featuring articles on lighters, manufacturers and all related matters. You will find major brands such as Zippo, Ronson, Evans, Dunhill, Dupont and Scripto. There are photographs of vintage lighters from pre 1900 to the present. Members can post free classified ads to sell or buy. If you prefer you may receive the newsletter on-line. We host an annual lighter convention where you can meet other collectors/dealers and talk about our mutual passion. You can bring lighters for display or sale and you can browse the tables to see and to buy lighters unknown to you. Bid at our auction and bring home undervalued treasures. Our convention is held in June and alternates between Las Vegas and a different city each other year. For example, in 2015 our convention was held in Memphis. In 2013 we traveled to Charlotte, NC. In 2011 our convention was in Nashville. In 2009 Cleveland was the site and in 2007 we were in Washington DC. Please visit our website www.otls.com to become more familiar with what we have to offer, view highlights of past conventions, and see our limited edition convention lighter. Join us and connect with other collectors, many of whom you may already know from on-line transactions but have never met.

We have an active Facebook page as well. Please visit and join in the conversation at:
