

ON THE LIGHTER Side

January 15, 1986

Vol. III, No. 1

ETC., Etc., etc.

Here it is the beginning of another year and I hope it will be a wonderful year for all of us - - if I can just remember to write "1986"!

It is time again for an election of officers for OTLS to serve for 1986. Therefore, I move that we elect the following slate of officers by acclamation:

John Cuevas	President
Jim Gartner	Vice Pres.
Judith Sanders	Sec/Treas
Judith Sanders	Newsletter Editor

Enclosed you will find a postcard upon which I would like you to record your vote and return to this office.

A word of THANKS should be given to Warren and Bob for all of their help this past year as they served as the first President and Vice President of OTLS!

I have had several requests to print phone numbers in the Membership Roster. If anyone does not want their phone number listed, please let me know, otherwise with the next Roster I will print home phone numbers. Please indicate your preference on the postcard.

More later.....

Judith

IN THE SPOTLIGHT....

NOT JUST COFFEE
IN THE KITCHEN!

Don Collier has found a unique and interesting place to display his lighters. He has shelves on his kitchen walls to display his collection (see photo). This idea may help those of you who are running out of display space!

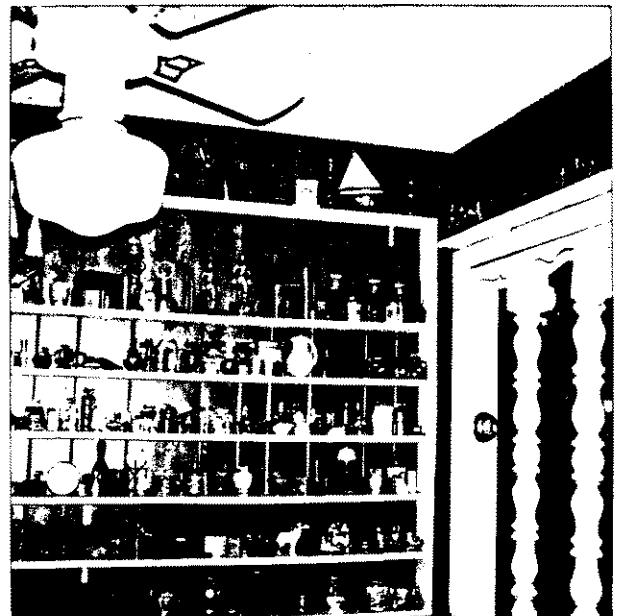

Living in Wichita, Kansas, Don is divorced and has 1 son, 2 daughters and 5 grandchildren. Don says his family also helps look for lighters at Flea Markets and garage sales.

Don told me he has always been a smoker and was always sticking lighters in a drawer when they quit working. Then several years ago he decided they would make a nice collection, so started displaying them - - and adding to the collection.

When asked about his most unusual lighter, Don said he thinks he has a "one of a kind" cannon, which he feels is homemade. In looking at the pictures Don sent, your Editor spotted several unusual lighters. There is a sailboat (top right hand corner) I haven't seen before; and then on the second shelf I see a Ship's Wheel which is very unusual.

He went on to say he really isn't interested in the value of a lighter as much as he wants lighters that interest him. Right now Don is looking for unusual lighters to add to his collection. As he put it "not just one with a different logo."

As well as looking for lighters, Don also collects miniature liquor bottles and decanters.

Illustrations actual size, except Tablelighter

COLLECTORS' CORNER For January and February Collectors' Corner will feature a series of pictures and information which Sidney Chase has sent in. These lighters are from a 1930 Jewelers' Catalogue and are very interesting. Thanks Sid!

TABLE LIGHTERS

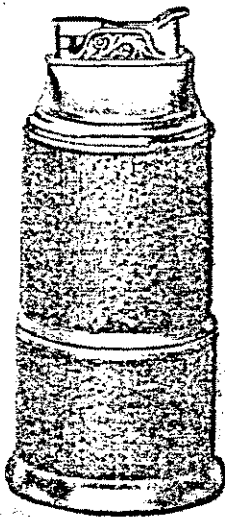

(EVANS UNIT)

In presenting this series of Table Lighters and Combination Table Lighters and Cigarette Holders in International Silverplate, we believe that we offer an unbeatable combination. An ingenious article with a widespread popular appeal; sure action with the EVANS Roller Bearing unit and the exquisite design, workmanship and finish, and the fine quality of International Silverplate, join to form a most attractive and readily salable novelty.

Cross-lever, roller bearing action is a new principle in lighter-building—exclusively EVANS—exclusively INTERNATIONAL. It means smoother action, wider clearance between snuffer and wick, an almost complete revolution of the sparking wheel that spurts a veritable shower of sparks to insure ignition—not at one, but at several points in the revolution of the wheel, from just one pressure of the thumb.
